

Can I set up online bookings?

Not at this point in time! HolidayzAway does not facilitate online bookings or processing of card payments.

Is this planned for the future? Yes this is a feature that we hope to introduce soon, you are free to add a link to another website if you already have a provider of this service. Please make sure you have tested any third party services to ensure they are reliable.

How can I take/process payments for my property rentals? We recommend setting up a Paypal account for this. Alternatively you can now also get payment processing services from Google with a Google Checkout account. Both these services are highly respected payment gateways that enable you to take Debit/Credit card payment from customers at relatively low cost.

Please click one of the images below to sign up for either a Paypal or Google Checkout account
